November 29, 2010

To Whom It May Concern,

My name is Michelle Lombardo; I am the President of The OrganWise Guys Inc, a nationwide health educational company. We produce evidence-based, curriculum-linked nutrition and physical activity materials for schools that consist of books, activity books and other classroom items as well as original video presentations for classrooms, commercial and cable television, for consumers of all ages.

We recently had the pleasure of working with Heavy Heavy Monster Productions (H²M), and their producer, Michael Cramer. H²M is an independent production company that creates content for the long running and critically acclaimed PBS documentary series, *A Wider World – The Show on Abilities*. Our experience with them has overall been a positive one. The final product, a twenty-minute segment that aired in November 2010 as the season opener, not only met but also exceeded our expectations.

I have been very pleased, from development through post production, with the professional level of service, creativity, and collaboration offered by H²M and their staff. H²M brought considerable production value to the segment, without going over their very reasonable budget. We consider our expenditure for this promotional opportunity as money well invested and we look forward to working with them again in the near future.

I recommend them to you without reservation. Please call me or email me if you have any questions regarding my business dealings with H²M. My office number is (800) 786-1730 and my email is michelle@organwiseguys.com.

Sincerely,

Michelle Lombardo D.C
